Pathway Forensics Announces Electronic Data Discovery Expert Alonzo Guerrero Joins Firm

Houston, Texas (Feb. 15, 2011) --- Pathway Forensics LLC, a Houston-based digital forensics, computer investigations and electronic discovery firm, announced that **Alonzo Guerrero** has joined the firm as electronic data discovery manager.

Guerrero is a certified professional with more than 20 years of experience in the legal industry, managing complex litigation matters and large scale database systems for Am Law 200 law firms and Fortune 500 companies. He has experience working with principle owners and key professionals across many industries.

In his new position, Guerrero oversees and manages daily operations of Pathway Forensics electronic data discovery department and leads the team in providing appropriate document review solutions and data handling strategies for clients. In addition, he leads client training initiatives and ensures Pathway Forensics is utilizing the most efficient and effective software tools and related technologies.

“Alonzo’s legal industry background and expert knowledge of the latest electronic data discovery technology makes him a great addition to our team,” said Erica Garrison, co-founder and principal, Pathway Forensics. “He shares our dedication in providing clients the highest quality and cost-effective data solutions needed to satisfy their requirements and legal obligations.”

Guerrero attended the University of Houston where he focused on computer information systems. He is certified in a wide range of computer forensics tools including LAW, Concordance, Clearwell, Ringtail, iConect, Discover-E, Doculex Cracker, ATTENEX and possesses specialist knowledge and training in eDiscovery review tools, Relativity, IPRO, RDMS.

Headquartered in Houston, Texas, Pathway Forensics LLC is a provider of computer forensics and electronic discovery services. The firm’s team of professionals has extensive experience in collecting, analyzing and providing expert testimony on electronic evidence from corporate networks, desktop computers, laptops and cell phones. Utilizing the most innovative software and cutting edge facilities, the firm also provides expertise in lab consulting services and supplemental on-site staffing for corporate clients. The firm is continuously called upon to handle cases involving business litigation, employment matters, theft of intellectual property, government inquiries and criminal investigations. Pathway Forensics serves clients throughout the United States including Fortune 500 corporations, law firms, law enforcement agencies and private businesses. For more information visit the firm’s website: www.pathwayforensics.com.
